

CabineTrack™

Cabinet Manufacturer's RFID Solution

A clear solution for your manufacturing plant

The CabineTrack™ system from Northern Apex automatically gives you instant insight into:

- ▶ Item origination, WIP and finished goods
- ▶ Finished goods as they are loaded into the truck
- ▶ Scrap-Repair and reorder

Enhanced visibility means improved accuracy and increased profits!

Benefits and Features of a Custom CabineTrack™ Solution

- ▶ See live (network) tracking data of each tagged item in a sales order
- ▶ Provides your production staff with key location data for real-time visibility of each tagged item
- ▶ Know exactly what is in the repair work stations
- ▶ Reduce production duplicates and overruns
- ▶ Tag product easily with Northern Apex's automated tag applicator.
- ▶ Initiates damaged or scrap replacement orders as originally tagged product is eliminated from production
- ▶ Compatible with SQL, SAP, Oracle and other ERP or MRP systems
